

Peachtree Data, Inc.

• IMPORTANT - CASS Cycle L Change •

On July 16, 2007 we implemented CASS Cycle L.

This resulted in two additional fields being added to your output layout. This data has been placed in FILLER fields, however if you are receiving a delimited file or a D:Base file then this will result in 2 additional fields being returned to you.

These two fields are STD_SLRT (SuiteLink Return Code), and DPV_CMRA (Commercial Mail Receiving Agency).

If you have any questions, please contact us at 800-477-3224.

Page 1 of 5

Field Name	Start	End	Length	Description
STD_LINE1	1	40	40	Standardized version of original input address
STD_LINE2	41	55	15	Standardized version of original input address
STD_CITY	56	83	28	Standardized City
STD_STATE	84	85	2	Standardized State
STD_ZIP	86	90	5	Standardized ZIP Code
STD_ZIP4	91	94	4	Standardized ZIP + 4 Code
STD_DPBC	95	96	2	Standardized Delivery Point Barcode
STD_CHKDGT	97	97	1	Standardized Delivery Point Barcode Check Digit
STD_CART	98	101	4	Standardized Carrier Route Code
STD_LOT	102	105	4	Standardized Carrier Route Line of Travel (LOT) Code
STD_LOTORD	106	106	1	Standardized LOT ascending or descending sort indicator
STD_URB	107	134	28	Standardized Puerto Rican Urbanization name
STD_FIPS	135	139	5	FIPS State and County Code (if requested)
STD_EWS	140	140	1	Early Warning System If a record matches to this file it means that even though a ZIP + 4 code was not returned the address is valid, and a ZIP + 4 will be available soon - typically within the next monthly CASS update. Y = Matched N = No Match
STD_LACS	141	141	1	ZIP + 4 LACS Flag L = LACS processing might return an update
STD_ZIPMOV	142	142	1	Information about the Standardized ZIP Code: 1 = ZIP Code not changed 2 = ZIP Code changed - new ZIP Code has been assigned for input addresses 3 = ZIP Code on input could not be validated
STD_Z4LOM	143	143	1	STD ZIP + 4 Level of Match F = Firm G = General Delivery H = High-rise apartment or office building P = PO Box R = Rural Route (RR) or Highway Contract (HC) S = Street

File Layout

Job Number: CYCLEL
 Date Processed: 07/10/2007

Page 2 of 5

Field Name	Start	End	Length	Description
STD_NDIAPT	144	144	1	National Deliverability Index (NDI) Scoring for high-rise addresses 1 = apartment address without apt./suite number 2 = apartment address with apt./suite number
STD_NDIRR	145	145	1	National Deliverability Index (NDI) Scoring for RR/HC addresses. 1 = RR/HC address without box number 2 = RR/HC address with box number
STD_GENDER	146	146	1	Gender code assigned to name supplied by client ** Only present if requested ** 1 = High confidence male 2 = Some confidence the name is male 3 = The name could be either male or female 4 = Some confidence that the name is female 5 = High confidence that the name is female 6 = Multiple names, some male and some female 7 = Multiple names, all male 8 = Multiple names, all female 9 = Multiple name, at least one ambiguous 0 = Unassigned
STD_DMAMPS	147	147	1	DMA Mail Preference Match ** Only present if requested ** Y = Record matched to the DMA File Record should be removed from unsolicited mailings Blank = No match
STD_PRISON	148	148	1	Prison Suppression Flag ** Only present if requested ** Y = Address match to prison file
STD_DECEAS	149	149	1	Deceased File Match ** Only present if requested ** Y = Record matched to the deceased file
STD_LACSRT	150	151	2	LACSLink Return Code ** Only present if requested ** A = LACS Record Match – The input record matched to a record in the master file. A new address could be furnished. 00 = No Match – The input record COULD NOT BE matched to a record in the master file. A new address could not be furnished. 09 = LACS Record Match: Highrise Default – The input record matched to a record in the master file, but the old address is a highrise default. 14 = LACS Record Match: New Address Would Not Convert at Run Time – The input record matched to a record in the master file. The new address could not be converted to a deliverable address. 92 = LACS Record Match: Secondary Number Dropped from Input Address – The input record matched to a master file record, but the input address had a secondary number and the master file record did not. The record is a ZIP + 4 street level or highrise match. * Only "A" and "92" records will return a converted address

Page 3 of 5

Field Name	Start	End	Length	Description
STD_SLRT	152	153	2	SuiteLink Return Code: A = SuiteLink match—secondary information exists and was assigned to this record as a result of SuiteLink processing. 00 = SuiteLink no match—lookup was attempted but no matching record could be found. blank = A SuiteLink lookup was not attempted because one of the following was true: - The address was not a highrise default according to CASS. - The address did not contain a firm.
STD_FILLER	154	159	6	
PEACH_ID	160	167	8	Unique identifier assigned during processing
DPV_AA	168	169	2	AA = Input address matches to the ZIP + 4 file
DPV_A1	170	171	2	A1 = Input address does not match to the ZIP + 4 file
DPV_BB	172	173	2	BB = All input address components match to DPV
DPV_CC	174	175	2	CC = Input address primary number matches to DPV but the secondary number does not match (the secondary is present but invalid)
DPV_M1	176	177	2	M1 = Input address primary number is missing
DPV_M3	178	179	2	M3 = Input address primary number is invalid
DPV_N1	180	181	2	N1 = Input address primary number matches to DPV but the high-rise address is missing the secondary number
DPV_P1	182	183	2	P1 = Input address is missing the PO, RR or HC Box number
DPV_P3	184	185	2	P3 = Input address PO, Rural Route, or Highway Contract Box Number is invalid
DPV_RR	186	187	2	RR = Input address matches to a Commercial Mail Receiving Agency (CRMA)
DPV_R1	188	189	2	R1 = Input address matches to a CRMA, however the secondary number is not present
DPV_STATUS	190	190	1	DPV Summary Status Field Y = Address was DPV confirmed for both the Primary and (if present) Secondary Numbers. D = Address was DPV confirmed for the Primary Number only, and Secondary Number information was missing. N = Both Primary and (if present) Secondary Number information failed to DPV confirm. S = Address was DPV confirmed for the Primary Number only, and Secondary Number information was present but unconfirmed. Blank = Address not presented to DPV for processing.
DPV_F1	191	192	2	F1 = Input address matches Military address
DPV_G1	193	194	2	G1 = Input address matches General Delivery address
DPV_U1	195	196	2	U1 = Input address matches Unique ZIP Code
DPV_CMRA	197	197	1	Flag to indicate a Commercial Mail Receiving Agency (e.g. Mail Boxes Etc, UPS Store, etc.) Y = The address is a valid Commercial Mail Receiving Agency. N = The address is not a Commercial Mail Receiving Agency. L = The address triggered DPV locking. blank = This component is blank when we cannot assign the input address.
DPV_FILLER	198	198	1	For future use

Page 4 of 5

Field Name	Start	End	Length	Description
DSF_SEASON	199	199	1	Seasonal delivery point Y = Yes N = No Blank = No match to the DSF2 file
DSF_VACANT	200	200	1	Vacant Address Indicator Y = Yes N = No Blank = No match to the DSF2 file
DSF_TBACK	201	201	1	Throwback Indicator Y = PO Box Delivery: The address associated with this delivery point is a street address, but delivery is made to the customer's PO Box Address. NOTE: The carrier does not deliver mail to the street or rural route / highway contract box address. The U.S.P.S. may not deliver mail addressed for the street delivery point to the PO Box unless the PO Box is included in the address. DSF will not cross-reference the street address to the appropriate PO Box. N = Not a throwback address Blank = No match to DSF2 file
DSF_RESBUS	202	202	1	Residential/Business Indicator B = Business Delivery R = Residential Delivery G = General Delivery U = Undetermined Address Blank = No match to DSF2 file
DSF_DTYPE	203	203	1	Delivery Type Code 1 = Curb - a delivery with a mail receptacle located at the curb 2 = NDCBU - a delivery point that is serviced by cluster boxes, also known as Neighborhood Delivery and Collection Box Units (NDCBU) 3 = Central - a delivery within a building that has two or more ZIP + 4 codes assigned to a blank of boxes or floors 4 = Door-slot - a delivery point serviced by something other than Curb, NDCBU or Central U = Undetermined Address
DSF_DROP	204	204	1	Delivery Drop Point Indicator Y = Delivery point is a drop (includes CMRA) N = Delivery point is not a drop
DSF_DCOUNT	205	207	3	Delivery Point Business/Family Served Count The field contains the number of potential deliveries to a drop site. If the DSF_DROP field equals "Y", then this field will contain the number of businesses or families served at that drop site.
DSF_SEQUEN	208	212	5	Pseudo sequence number - used for walk sequence mailings - must be requested in addition to DSF processing

File Layout

Job Number: CYCLEL

Page 5 of 5

Field Name	Start	End	Length	Description
DSF_SCORE	213	213	1	DSF Mail Score: 1 = Address matched to the DSF file 2 = Address marked as a seasonal address 3 = Primary address matched the DSF file. However, the secondary address componet (ie. Apt #) did not match to the DSF file. This address may or may not be deliverable. 4 = Address did not match the DSF file, but did get a ZIP + 4 match. There is a flaw in the address information that prevented a direct match to the DSF file. Record may be undeliverable. 5 = No match to the DSF database or to the ZIP + 4 database. There is a flaw in the address information that prevented a match to either the DSF or the ZIP + 4 database. Record may be undeliverable. 6 = Address marked as being vacant for 90 or more days. Address information is accurate but is undeliverable. 7 = Address has serious problems that prevent a match to DSF and ZIP + 4 files. Address fields may be incomplete, or contain junk data.
DSF_STATS	214	214	1	DSF No Stat Indicator Y = Address is flagged as No Stat in DPV data N = Address is not No Stat No Stat means that the address is a vacant property, it receives mail as a part of a drop, or it does not have an established delivery yet.
DSF_SEQSRC	215	215	1	DSF Sequence Source Indicates which address is the basis for the assigned walk sequence number O = Original address M = Move-updated address (only available if you're performing NCOALink processing also
DSF_EDU	216	216	1	Educational indicator Y = Address is an educational institution N = Address is not an educational institution blank = Address was not looked up
DSF_FILLER	217	262	46	For future use
ORIG_INPUT	263	412	150
